Times are estimated, we will try to run each race as soon as possible.
Please bring Safety Pins for Numbers for all your athletes. We will have a few on hand in case you run short.

NOTE: Please be aware that this course is a very fun but challenging course. Remind your athletes that there are natural hazards throughout the course and to watch out for rocks, roots, and ruts. We will try to indicate the most hazardous of areas, but we would recommend a conversation about running spikes vs. running shoes.

For the sake of time, we will run the JV's and Varsity for Boys and Girls together, we automatically score the top seven in each group for Varsity. This will allow greater flexibility for our coaches as some of us have used this method to help determine Conference Lineups and other decisions.
